Enrollment Figures

What are the past and present enrollment figures?

Responses:

- Bethel historically has enrolled about 900 students. Currently, Bethel has over 1000 students enrolled. Between October 2012 and 2013, Bethel has seen a substantial increase in enrollment, adding approximately 80 students. This growth is a result of Carriage Trails’ additional housing and turnover in existing Bethel Township homes.
- In the 1970s, Bethel did have some grades that were over 100 students and total enrollment was over 900 students. During this time, 2 grades were educated offsite at local churches. This is not a viable option today because of different regulations.
